REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to show a conferencing method employing first and second sets of digital signal processors. The first set of signal processors receives signals of those participants that are speaking, then those signals are summed and sent to a second set of digital signal processors along with a conference list. No obvious combination of references found would have taught one of ordinary skill in the art to make and use applicant's apparatus as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton H. Smith whose telephone number is 571/272-7546. The examiner can normally be reached on M-F, alternate Fridays off.
